

Please allow more discussion, debate, and hearings re eliminating remaining restrictions on media ownership. I've always been told the airwaves are owned by the people--you and me. If that is still the case, then I am requesting that the FCC allow more hearings and public discussion and input re an issue that will affect the public so monumentally. I thought this was how the democratic process was supposed to work. Please open this up for serious public debate. I believe it's the right thing to do; I'm counting on you to do it.

Thank you.

Martha Chambers
